Microsoft® Office® 2007

Get Tasks Done Easily and More Efficiently

- Create high-quality documents
- Work with enhanced reliability and security features
- Organize your notes and information

New tools help you work faster and create more professional documents, spreadsheets, and presentations. New task-based menus and toolbars automatically display the commands and options you can use, making it faster and easier to find the software features you need. And the Live Preview feature makes it easy to sample your changes before you apply them.

Office 2007 helps you quickly accomplish routine tasks. Find what you need faster and more easily using Instant Search. Protect yourself with improved junk mail and anti-phishing filters. Produce professional-looking documents, spreadsheets, and presentations that are publication-ready without spending hours on formatting and refinements.

ScreenFlow v.1.5 Mac
 Professional Screencasting Studio

- Develop high-quality instruction videos
- Easily create recordings of lectures
- Record from desktop, a video camera, DVD, microphone, and computer's audio simultaneously
- Easy narration of presentations
- Powerful editing tools
- Produce screen recordings in Windows Media video format

ScreenFlow is an application for creating amazing screen recordings on your Mac. Using a unique screen capture system, powerful enough to capture the contents of your entire desktop at the same time as your video camera, microphone and computer's audio, you'll be creating incredible screencasts in no time.

ScreenFlow has the best screen capture available. Using a custom compression system, ScreenFlow can handle everything from capturing DVD video and audio to fast moving Keynote presentations. You don't need to pick an area of the screen for capture, ScreenFlow has advanced algorithms that only encode areas of change on your screen. The application is powerful enough to simultaneously record from your iSight or DV camera at the same time as your screen (and your microphone and computer's audio!).

Office Visio® Pro 2007
 Visualize, Explore, and Communicate Complex Information and Processes!

- Visualize complex information to better understand it
- Explore information to identify trends and issues and act on them
- Communicate information using Visio diagrams to maximize its impact in ways words and numbers alone cannot
- Communicate using diagrams you can share with a broad audience

Microsoft Office Visio 2007 makes it easy for IT and business professionals to visualize, explore, and communicate complex information. Go from complicated text and tables that are hard to understand to Visio diagrams that communicate information at a glance. Instead of static pictures, create data-connected Visio diagrams that display data, are easy to refresh, and dramatically increase your productivity. Use the wide variety of diagrams in Office Visio 2007 to understand, act on, and share information about organizational systems, resources, and processes throughout your enterprise.

Office Visio Professional 2007 offers advanced functionality, such as data connectivity and visualization features, that Office Visio Standard 2007 does not.
