Orion Orion SkyQuest XT8 Classic Dobsonian Telescope

The classic XT8 combines powerful optics with the ultimate in mechanical simplicity and stability. It features a precision 8" (203mm) parabolic primary mirror, center-marked at the factory for precise collimation and mounted in a cast-aluminum support cell that provides maximum ventilation. The mirror pulls in 73% more light than a 6" – enough to tease out dust lanes in nebulas, resolve the cores of prominent globular clusters, and reveal subtle structure in elusive galaxies.

AutoCAD® 2010 Education Student Version
 Take Design Further with the World's Leading 2D and 3D CAD Application

- Updated interface is easier to learn and use
- Action recorder allows you to easily record and play back commands
- New menu browser interface enables you to browse files and examine thumbnail images
- New ViewCube™ feature allows for easy rotating and orienting of any solid or surface model

With AutoCAD software, Autodesk has just one goal in mind: increasing your productivity. AutoCAD 2010 boosts efficiency with customizable and extensible user interface enhancements that increase overall drafting productivity by decreasing the number of steps to reach a command. New innovative features simplify working with layers and help make new users productive as quickly as possible. Easy-to-use navigation tools make finding your way around 3D models a snap.

Move to new levels of productivity with AutoCAD 2010 as you integrate the advantages of the improved user interface into your existing work practices. And, by using Autodesk Design Review software – the free integrated solution to electronically view, mark up, and revise designs – you can give virtually anyone, anywhere the opportunity to participate in the review process.
